- SELO DE CONTROLE (100 M²) STORE IN SÃO PAULO (2019)

Photographed by Andre Klotz
Retail Store in São Paulo (Brazil)

The 100 square meter retail restoration project for Selo brand of handmade shoes inspired us to create a kind of brief escape atmosphere. MNMA studio's core process of developing ideas.

- CASA CUPE (250 M²) HOUSE IN PERNAMBUCO (2018)

Photographed by Andre Klotz
Retail Store in São Paulo (Brazil)

A large yellow slab encircled by a porch was the element that guided the intimate design of the Casa Cupe, located in an old townhouse in the city of Olinda, Pernambuco state, northeastern Brazil. A project that materializes sensations and seeks more harmonious forms of construction with nature.

- DOIS TROPICOS (2 KM²) RESTAURANT IN SÃO PAULO (2020)

Photographed by Andre Klotz
Restaurant and store in São Paulo (Brazil)

In Dois Tropicos, the limit between an architectural project and its production becomes incredibly thin and sensitive, emerging into a result where organic experimentation and calibrated architectural decisions always fuel and impact each other.

ATTENTION TO TEXTURES AND MATERIALS

[OUR CURATION PROCESS](#)

During the curation process and during the building development, MNMA studio paid attention to the textures and their capacity for expression of materials. It was decided to select this sort of terrazzo technique of filling the cracks with a special cement mixture to honor the fact. The toilet sink is also a handmade process of "crushing" a limestone and applying flames to it, to create a very particular rough texture.
