About

Biography

Mehdi's first approach to "movement" started when he was 11, through the practice of Capoeira, bboyng, and acrobatics. To broaden his horizons, he decides to enrich his toolset through training in ballet, classical dancing, modern Jazz, and contemporary dancing.

In 2011, his discovery of theatre through the international theatre school Ecole Jacques Lecoq revolutionized his vision of movement and unveiled new perspectives. Since then, Mehdi has been creating ever since than been dedicated in creating links between his inspirations and experiences, all whilst integrating a strong theatrical dimension.

He has notably worked with Giuliano Peperini, James Thierré, and Yannin Bourgeois.

In 2018, Mehdi Baki created his first project called "Bye Bye Myself" in collaboration with Nicolas Fayol. Shortly followed by his second due "OHHO" premièred in November 2020.

Gradually developing a stronger interest in cinema, he makes his debut in 2022 in "En Corps", latest movie directed by Cédric Klapisch.

He remains, in parallel, active in battles, having been a finalist in Juste Debout in 2018, twice the winner of the battle Open Your Mind in 2018.

MNMA STUDIO REDESIGN

2021

The image shows a side-by-side comparison of two versions of the MNMA website. The left side represents the 2018 design, characterized by a dark, monochromatic aesthetic. It features a large, stylized white logo icon on the left, followed by the letters "MNMA". To the right, there's a photograph of a minimalist interior with a yellow floor, a white sofa, and a wooden chair. Overlaid on this image is the text "NEXT – CUPE HOUSE" in a white, sans-serif font. The right side represents the 2021 redesign. It has a clean, modern look with a white background. At the top, there's a header bar with the "MNMA" logo and the text "TRANSDISCIPLINARY ARCHITECTURE STUDIO". Below this, the main title "MNMA STUDIO REDESIGN" is displayed in large, bold, green and black letters. A prominent section below is titled "• CASA CUPE (250 M²) HOUSE IN PERNAMBUCO (2018)". This section includes a photograph of the same interior space, a credit line "Photographed by Andre Klotz", and a note about the project being a "Retail Store in São Paulo (Brazil)". A small "EXPLORE" button with a downward arrow is located at the bottom of this section.

In Dois Tropicos, the limit between an architectural project and its production becomes incredibly thin and osmotic, emerging into a result where empiric experimentation and calibrated architectural decisions always fuel and impact each other. MNMA's design of a commercial space in São Paulo.
