CASA CUPE (250 M²) HOUSE IN PERNAMBUCO (2018)

Photographed by Andre Klotz

Retail Store in Sao Paulo (Brazil)

A large yellow slab encircled by a porch was the element that guided the intimate design of the Casas Cupe, located in an old coconut farm in the region of Pontal do Cupe, Pernambuco, northeastern Brazil. A project that materializes sensations and seeks more harmonious forms of construction with nature.
